

Emory International Student and Scholar Tax FAQs

GENERAL QUESTIONS	
<p>1. Why does Emory need my immigration data?</p>	<p>Emory is required by the U.S. Internal Revenue Service (IRS) to withhold federal income tax from ALL payments made to (or on behalf of) a nonresident alien (with a few exceptions). Regulations also require that Emory report all such payments to the IRS. Therefore, Emory must review all data related to the immigration status and purpose of their stay of all payment recipients at Emory who are not U.S. citizens or lawful permanent resident aliens. Determining tax residency and tax treaty eligibility is a complicated and difficult task which is why the Nonresident Alien (“NRA”) Tax office at Emory uses tax compliance software called Foreign National Information System (“FNIS”).</p>
<p>2. What is the process for providing my immigration data and signing the necessary tax related forms?</p>	<p>The first step in the process is to email the nonresident alien tax office (nonresident.tax@emory.edu) to request a user name and password for the Foreign National Information System (“FNIS”). You will be sent an email with (1) a link to the system with a user name and a temporary password and (2) Instructions on how to complete your information in FNIS.</p> <p>Once FNIS is completed, the NRA tax office will review the information and send a follow up email on how to access the necessary forms for printing and signing.</p> <p>The entire process can be done electronically which eliminates the need to meet face to face and results in faster processing of the tax forms.</p>
<p>3. What is the FNIS (Foreign National Information) System?</p>	<p>The nonresident alien tax office is responsible for tax compliance for payments made to all foreign national employees of Emory. To perform this task, NRA tax office utilizes the secure online tax compliance software program FNIS. All foreign national employees are required to enter data related to their immigration history and presence in the United States. FNIS will then determine their tax statuses and eligibility for treaty benefits.</p> <p>If you are a foreign national employed by Emory in any capacity (student assistant, faculty, or staff) and you have not entered your personal data into FNIS, please email nonresident.tax@emory.edu for an account invitation and password.</p>

<p>4. What is FICA?</p>	<p>“FICA” (which stands for "Federal Insurance Contributions Act") refers to the payroll taxes withheld from your salary that fund both the U.S. Social Security and Medicare programs. Employees who are full-time students, nonresident alien students (first five years) (F-1s/J-1s) and nonresident alien scholars (J-1s in the first two years of their program) do not have to pay FICA taxes. If you are required to pay FICA taxes, the Medicare contribution is identified as “Fed MED/EE” and the Social Security contribution is identified as “Fed OASDI/EE” on your Emory paycheck. The Medicare contribution is 1.45% of your taxable income, the employee’s share of the Social Security payroll tax is currently 6.2% of your taxable income.</p> <p>If you are unsure of your tax status, check your FNIS tax summary for information on your nonresident status and when you can expect to start paying FICA taxes</p> <p>If you believe that Emory withheld FICA in error from your paycheck, please email nonresident.tax@emory.edu</p> <p>If a non-Emory employer withheld FICA in error, please read the refund instructions, and review the sample form 843 and sample form 8316.</p>
<p>5. Tax Treaties</p>	<p>Foreign national employees of Emory may qualify for a full or partial exemption from federal tax withholding if a tax treaty exists between the U.S. and the foreign national’s country of tax residence. The FNIS tax compliance software will assist with determining eligibility for a tax treaty benefit and provide all of the necessary paperwork. This paperwork must be renewed on an annual basis.</p> <p>See IRS Publication 901 for more details on Treaties.</p>
<p>6. Social Security Number</p>	<p>A social security number is a permanent nine-digit identification number/card issued by the Social Security Administration (SSA). It is used primarily to identify participants in the federal government's Social Security Program but because it is unique to each person the number is now used by many other public and private organizations. Anyone employed in the United States must obtain a social security number.</p>
<p>7. Why is my Tax Status Important?</p>	<p>In order for Emory to comply with U.S. tax laws, it is necessary for Emory to determine your U.S. tax residency status. The IRS has developed a test of days present in the U.S. and rules as to which foreign nationals are subject to that test: Substantial Presence Test (“SPT”). Emory’s reporting requirements to the IRS are determined by the payee’s tax residency. Resident aliens for tax purposes have met the SPT.</p>
<p>8. What is the Difference between a Nonresident Alien and a Resident Alien?</p>	<p>A nonresident alien for tax purposes is taxed only on his/her U.S. based income and has tax rates specific to nonresidents. A resident alien for tax purposes is subject to U.S. taxation on his/her worldwide income, i.e. you are taxed in the same manner as a U. S. citizen.</p>

9. How Long Will I Be a Nonresident Alien?	F-1 and J-1 student visa status holders are generally nonresident aliens for tax purposes for five calendar years. J-1 nonstudent visa status holders have a more complicated test that looks at a period of two years out of the last six. J-1 nonstudents visa status holders often become resident aliens for tax purposes in their third calendar year in the U.S. Other nonimmigrant aliens will often become resident aliens for tax purposes in less than one year's time. The U.S. tax system is based on a calendar year period (January 1 – December 31). In most cases, when your U.S. residency status for tax purposes changes, you will become a resident alien for tax purposes retroactive to the first day of the calendar year during which your status changed, i.e. January 1.
10. What if I Do Not Submit my forms or documents to Emory?	If you do not complete the information in FNIS and submit the required forms and documents, the maximum amount of tax will be withheld from all taxable payments made to you.
11. How Will I Be Taxed as a Nonresident Alien (NRA) on Payments From U.S. Sources?	<p>As a Nonresident Alien for Tax Purposes without a tax treaty, U.S. tax law requires that you be taxed in the following manner:</p> <ul style="list-style-type: none">• Employment Employees are subject to an NRA graduated withholding table on your wages and required by tax code to file a Form W-4 (Employee's Withholding Allowance Certificate) as a SINGLE person with one allowance—regardless of your marital status.• Scholarships/Fellowships Awards for mandatory tuition and fees are not reportable and not taxable (qualified expenses). Awards for room and board and other expenses (non-qualified expenses) are reportable and have 14% withheld for taxes for F, J, Q, and M visa status holders and 30% for other visa status holders.
12. Can I Be Exempt From Tax Withholding?	Approximately 63 countries have tax treaties with the United States and some of these treaties allow payments of one type or another to international students and/or scholars to be exempt from U.S. taxation. The tax compliance software, FNIS will determine whether or not you qualify for a tax treaty exemption, and will provide you with the necessary information and forms to take advantage of your tax treaty benefits. This paperwork must be renewed on an annual basis, so be sure to renew the paperwork at the appropriate time each year. Emory renews all treaty paperwork annually in December for the following year.

GENERAL INCOME TAX QUESTIONS	
<p>13. Am I required to file tax reports?</p>	<p>International students and scholars who have been in the U.S. for any portion of a calendar year must file some sort of U.S. annual tax report by the following year's tax filing deadline. International students and scholars should access the Foreign National Tax Resource ("FNTR") (http://www.emory.edu/iss/life_in_the_us/taxes/index.html and select "Log in to FNTR" on the right side of the page) to determine their tax filing requirement. You may be required to file taxes with the State of Georgia as well; refer to <i>State Taxes</i> section below.</p>
<p>14. What type of income is taxed?</p>	<p>Income that is taxed includes wages, scholarships and earnings on investments. (A complete list of taxed income may be found in IRS and state tax guides.) The most common type of income is wages; the money withheld from each paycheck is an estimated payment of the federal and state income tax obligation. This money is sent by the employer to the IRS and Georgia Department of Revenue under the individual's tax identification number (Social Security number or ITIN). Taxable scholarship payments may have some amount withheld just like wages. Investment income (not including bank interest) rarely has an amount withheld in advance; the applicable tax is paid when filing one's tax forms.</p>
<p>15. I'm an F-1 or J-1 student and I had no U.S. earned income or scholarships in 2016. Do I need to file?</p>	<p>Yes. You must file IRS Form 8843. Spouses and dependents in F-2 and J-2 status must also file Form 8843. You can complete this form by using FNTR. Or it is a very simple form and instructions can be found at http://www.emory.edu/iss/life_in_the_us/taxes/index.html and a fillable version of the Form 8843 at https://www.irs.gov/pub/irs-pdf/f8843.pdf.</p>
<p>16. If I worked in 2016 but returned to my home country, do I still have to file taxes in the United States?</p>	<p>Yes. All individuals who were present in the United States for any portion of a year must file a tax report for that year. Ask your employer to mail your W-2 form to your home country address or you may print one online. Emory provides Form W-2 and Form 1042-S electronically so they can be accessed from anywhere. If you overpaid federal tax, the IRS can mail your refund check overseas.</p>
<p>17. I only arrived in the U.S. in December of 2016 and I didn't work. Do I still have to file Form 8843?</p>	<p>Yes. If you were in the U.S. under an F or J status even 1 day in 2016, you must file Form 8843 for yourself and any of your dependents in F-2 and J-2 status.</p>

<p>18. What are the consequences of not filing?</p>	<p>Payment of income tax is not voluntary, it is required by law. One of the conditions of your visa is to comply with U.S. law. If you owe taxes and don't file, the IRS can assess penalty and interest and seize U.S. bank assets for repayment. Fines and penalties can often amount to more than the original tax debt. Additionally, if you are resident alien for tax purposes, you could be penalized for not complying with the Patient Protection and Affordable Care Act (ACA). There can also be immigration consequences for failing to file taxes. Applicants for permanent residency "green cards" may be asked to show proof of tax filing for previous years in the U.S.</p>
<p>19. What is the deadline for filing tax returns?</p>	<p>Tax returns are generally due by April 15th of the following year, unless April 15th falls on a Saturday, Sunday, or legal holiday. Tax returns for the 2016 calendar year must be postmarked by Tuesday, April 18, 2017.</p>
